REASONS FOR ALLOWANCE

Examiner acknowledges a submission of the amendment and arguments filed on May 12, 2004. Claims 1, 14 and 20 are amended. Amendment and arguments have overcome rejections under 103(a).

Applicant insisted on keeping the phrase "said bimetal including temperature" in the Claims 1 and 14. Temporal characteristics of materials, such as temperature, or voltage are not introduced in the same manner as materials themselves. To introduce the materials, the words "comprising, consisting, including" are widely used, while their temporal characteristics are introduced by such words as "having" or "characterized by that". The Applicant's phrase: "bimetal including temperature" was interpreted as "bimetal having temperature".

The following is an examiner's statement of reasons for allowance:

An amended independent Claim 1 discloses, inter alia, "the thermistor adapted to respond to the temperature of said bimetal". The closest reference for the Claim is Vlasak, which discloses a thermistor used together with the bimetal element. However, the reference discloses the ambient temperature resistor (not the bimetal temperature measuring thermistor) that is thermally linked to the bimetal members and that cooperates with an outdoor ambient compensating, NTC thermistor, in order to provide

relatively significant anticipation heat to such bimetal members at high outdoor temperatures.

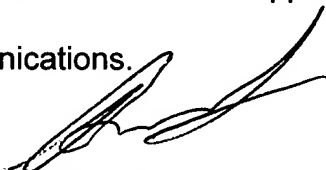

The same limitation is recited over again in other independent Claims 10, 14 and 20, thus making the case allowable.

Allowability resides, at least in part, in the above-described limitations, which has not been disclosed in the Prior Art in a search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zeev Kitov whose telephone number is (571) 272-2052. The examiner can normally be reached on 8:00 – 4:30. If attempts to reach examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571) 272 – 2800, Ext. 36.
